

Capability Statement

Core Competencies

SIMPLIFIED SOLUTIONS FOR COMPLEX PROBLEMS. At EM Disaster Solutions, we take a straightforward, people-centered approach to disaster management and planning. Our methods go beyond the traditional, offering practical and adaptable solutions that strengthen community resilience for rural, small, and under-resourced communities. When you call on us, you're choosing a long-term partner committed to helping your community stay safe and rebuild stronger after every disaster.

- Pre/Post-Disaster Planning
- Disaster Management Consulting
- Continuous Improvement
- Community Preparedness Training

Differentiators

- **Resilience Building for All Without Exception** – We make disaster planning inclusive by design, meeting rural, small, and under-resourced communities where they are. Through innovative, custom built AI solutions, we help simplify processes, reduce redundancy, and accelerate resilience for those that can't afford delays.
- **Data-Driven Continuous Improvement** – We translate after-action insights into clear, actionable steps for continual improvement in resilience and preparedness.
- **Whole Community Coordination and Engagement.** We help communities build the networks they need to manage disasters—connecting local agencies, nonprofits, businesses, and residents to ensure no one plans alone and every stakeholder is ready to act when it matters most.

Past Performance

7/2024 – PRESENT | (1099) National Hazard Mitigation Association, Program Management Services | Grant Value: \$350K+ - Providing Program Management/Project Management support, responsible for advancing the hazard mitigation profession through the delivery of disaster risk reduction training and credentialing for state, local, tribal, and territorial partners, enhancing their capabilities and impact in communities.

3/2017 – 5/20217 | (1099) Florida Disaster Consulting (SUB), Disaster Management - Recovery | Value: \$36.5K – Managed QA/QC debris tickets for Leon County, Florida's cleanup efforts post-Hurricane Hermine, overseeing the accurate reporting and compliance of over 7,000 tons of debris with FEMA's Public Assistance regulations for Category A, ensuring all reimbursement processes were precisely executed and fully justified.

6/2015 – 8/2015 | (1099) ER Assist (SUB), - Disaster Management – Response | Value: \$26K - Coordinated logistics for 3,000 personnel across 38 farming territories in Iowa, tracking time, equipment, and materials to ensure efficient resource management and accountability during the response and recovery efforts.
